Dear Homeowner,

The "Home Performance with Energy Star" program, which is administered by the Energize Delaware Program, has increased rebate incentives by 50% to homeowners who complete work recommended by energy audits. This program offers a \$300 rebate on the initial audit and subsequent rebates on different energy measures recommended by the auditor.

**Rebates could amount to as much as \$6,750.**

Rebates begin with the audit. Energize Delaware will cover up to \$300 of the audit costs. Once the audit is completed, Custom Mechanical will provide a prioritized list of recommendations to make the building more efficient. Rebate amounts include up to \$650 for air sealing, \$900 for attic insulation, \$675 for high efficiency HVAC equipment and \$600 for tankless water heater.

**In order to be eligible, rebate reservation must be secured by Dec. 31, 2014 and upgrades must be completed by March 31, 2015.**

Custom's certified BPI Building Analyst and Envelope Professional starts by looking at the house as a system: the audit will pinpoint specific areas of deficiencies in the envelope of the home. These will include air tightness of the home, insulation levels and quality of installation, duct leakage to outdoors, HVAC equipment efficiencies, moisture issues, crawl space issue and health and safety issues. Only by including all aspects of the home can a good action plan be developed and implemented.

Custom Mechanical is your local Home Performance with Energy Star auditor and contractor headquartered in Sussex County. We can perform the initial audit as well as the recommended work and complete the rebate process for your rebates. The program is open to all Delaware primary residences, regardless of electricity supplier or how you heat your home. Rebates are offered on a first come, first served basis and are subject to available funds. Having the audit and upgrades done now assures your rebates and you will begin to realize a more comfortable, healthy home and lower energy bills.

**You can start the process by calling us to schedule your home assessment or visit [energizedelaware.org](http://energizedelaware.org) for more information on rebate qualifying energy upgrades.**

As always, at Custom Mechanical we are happy to answer any questions you may have about electrical, heating, cooling, carpentry, plumbing and home performance related issues - on the phone, in person, via e-mail ... even on Facebook! Our Retail Store offers parts and supplies. Our Comfort Advisors are available for free estimates and information about financing (6 or 12 months same as cash available now) and manufacturer rebates (up to \$1,000 this fall). Finally, our website offers more tips like these as well as specials, on-line scheduling and more detailed information about Custom Mechanical, the people that make us great and the services we offer. Contact us anytime! Locally, 302-539-5177. Toll free, 800-233-5177. Or on the web, [www.custommechanical.com](http://www.custommechanical.com).

Sincerely,

cooling | heating | plumbing | electrical | carpentry | home performance | *service for every season*
